

Technical drawing of a mechanical part, likely a flange or base plate, showing a cross-section. The part has a central cylindrical feature with three horizontal slots. Dimensions are given: outer diameter $\varnothing 2160$, inner diameter $\varnothing 1800$, and a width of 3000. Section lines A-A and C-C are indicated.

Technical drawing of a circular structure, likely a cross-section of a pipe or vessel. The drawing shows a circular body with a central hole. The overall diameter is $\phi 1000(*)$. The height of the structure is 2250 . The width of the structure is 2630 . The central hole has a diameter of $\phi 2160$. The distance from the center of the hole to the outer edge of the structure is 900 . The distance from the center of the hole to the inner edge of the structure is $\phi 1800$. The distance from the center of the hole to the outer edge of the structure is $500(*)$. The distance from the center of the hole to the outer edge of the structure is 1350 .
